**Like a meatball,
but made of
oats and seeds**

ADDITIVE-FREE

When a bakery with a long history, Leivon Leipomo, started to develop a new bread roll product the outcome was totally unexpected; a new range of Vegetarian balls based on oats and seeds. The Boltsi -balls became immediately a success.

Because the taste was excellent and the texture resembled meatballs, the oats-and-seeds balls entered the Finnish Recipe for Success 2019 competition organised by Finland's largest grocery shop chain, S Group. In the end, the additive-free Boltsi won the competition and revolutionised the ball product category.

Boltsi Original 230g

Wholegrain oats, sunflower and pumpkin seeds and flaxseeds. Goes great with spaghetti or mashed potato.

Boltsi Chili&Tomato 230g

This hot ball is loved by both vegans and non-vegetarians.

Boltsi Morocco 230g

Spicy yet not hot. Gets its lovely flavour from the Ras el Hanout spice mix.
