## Traditional Meatballs

HKScan has been producing the favourite “Swedish” Meatballs for more than 50 years. The taste and structure of Meatballs made from pork and beef meat have been copied in many countries, but our Meatballs characterizes taste and quality at its best.

We produce Meatballs in Sweden, Finland. We have sold more than 50 billion Meatballs and we are category leader in all of our home market areas.

### **Swedish Meatballs 400 g**

**Like a meatball,  
but made of  
oats and seeds**

**ADDITIVE-FREE**

When a bakery with a long history, Leivon Leipomo, started to develop a new bread roll product the outcome was totally unexpected; a new range of Vegetarian balls based on oats and seeds. The Boltsi -balls became immediately a success.

Because the taste was excellent and the texture resembled meatballs, the oats-and-seeds balls entered the Finnish Recipe for Success 2019 competition organised by Finland's largest grocery shop chain, S Group. In the end, the additive-free Boltsi won the competition and revolutionised the ball product category.

**Boltsi Oatballs Original 230g**  
Wholegrain oats, sunflower and pumpkin seeds and flaxseeds. Goes great with spaghetti or mashed potato.

**Boltsi Oatballs Chili&Tomato 230g**  
This hot ball is loved by both vegans and non-vegetarians.

**Boltsi Oatballs Morocco 230g**  
Spicy yet not hot. Gets its lovely flavour from the Ras el Hanout spice mix.
